

# Lets Make Oobleck!

## Materials

- 2 Bowls
- Water
- Food Coloring
- Corn starch

Students will learn what oobleck is and how to make it.

K - 2nd  
Grade

## Directions

1. Add 2 cups of cornstarch to a bowl.
2. In the other bowl, add 1 cup of water and add the food coloring of your choice.
3. Pour the water in with the cornstarch and mix.
4. Once you mix, you should get a hard consistency.

## What is oobleck?

It's a substance made from a mix of cornstarch and water. It can feel like a solid when you hold it in a ball, but it becomes liquidy when you let your hand go loose. It takes the shape of its container. Oobleck got its name from a book by Dr. Seuss, called Bartholomew and the Oobleck. In it, the oobleck is a mystery substance that falls from the sky.
