

Commemorative Pavers and Butterflies

Commemorate your support of the South Florida Science Center and Aquarium with a personalized brick paver! This is your opportunity to leave a lasting legacy while supporting informal science education.

Brick by brick, butterfly by butterfly, we are building upon the Science Center’s future. Personalized brick pavers and butterflies are a great way to honor loved ones, celebrate anniversaries, and recognize milestones.

Brick pavers are located at the main entrance of the Center in front of the beautiful Discover Plaza and in front of the new amphitheater on the Fisher Family Science Trail. Butterflies are flying on the wall at the entrance to the Science Trail.
